

MedAnnex expands to new facilities at TechCube Edinburgh.

Edinburgh, Scotland - 7th October 2015.

The MedAnnex team is now installed in larger office premises close to Edinburgh University.

The new office is part of Edinburgh's TechCube, which has a strong reputation as an incubator for innovation.

The list of successful companies which began life at TechCube includes FanDuel which, along with Skyscanner, is one of only two Scottish tech start-ups to have reached a \$1-billion-dollar market value.

From within this dynamic working environment, the MedAnnex team looks forward to continuing to oversee the development of Annexuzlimab® as a novel treatment for autoimmune diseases. MedAnnex Chairman Professor Chris Wood said *'This is an exciting new phase for MedAnnex and the new facilities give us more room to grow our technical team here in Edinburgh as we advance Annexuzlimab® towards clinical trials'*.

About MedAnnex

MedAnnex Ltd, based in Scotland, is a dynamic biotechnology company developing new treatments for people with autoimmune diseases.

About Annexuzlimab®

Annexuzlimab® is a humanised monoclonal antibody which, in extensive non-clinical testing, has shown significant activity in rheumatoid arthritis, multiple sclerosis and systemic lupus erythematosus.
